## Merchandise trade grows in Q3

 2013.
## Imports rise while non-crude oil

## exports weigh on trade balance

## Total Merchandise Trade

Nigeria's total external merchandise trade amounted to N5,658.2 billion during the Third Quarter of 2013. This represents an increase of $5.9 \%$ from N5, 341.1 billion recorded in the Second Quarter of 2013. The increase was driven by a $30.4 \%$ rise in the value of imports from $\mathrm{N} 1,598.2$ billion in the Second Quarter of 2013, to N2,084.8 billion in the Third Quarter of 2013. Rising imports coupled with a $4.5 \%$ decline in exports from N3, 742.9 billion in the Second Quarter 2013, to N3,573.4 billion in the Third Quarter, resulted in a trade balance of N1,488.6 billion, 30.6\% lower than that recorded for the Second Quarter.

In comparison to the corresponding quarter of 2012 , total merchandise trade in the Third Quarter of 2013 declined by $21.2 \%$ from N7, 179.4 billion recorded in the previous year. This is largely attributable to a $39.5 \%$ lower value of exports year-on-year. Imports on the other hand, were $64.0 \%$ higher compared to the corresponding period. Consequently, the trade balance was $67.9 \%$ lower in the Third Quarter of 2013 relative to the corresponding period in 2012. Year to date, total merchandise trade stood at N16, 098.2 billion, down by $22.9 \%$ from the $\mathrm{N} 20,885.4$ billion cumulative total recorded through the third quarter of 2012 (Table 1).

The crude oil component of exports in the Third Quarter of 2013 stood at N3,087.0 billion, an increase of N377.5 billion, or $13.9 \%$ when compared with the Second Quarter of 2013. In contrast, the non-crude oil component

of exports exhibited a sharp decline of $52.9 \%$, from N 1,033.5 billion recorded in the Second Quarter to N486.4 billion in Third. Year-on-year, crude oil and non-crude oil exports were down by $25.9 \%$ and $72.1 \%$ respectively.

## Imports Classified by Standard International Trade Classification(s) and Country of Origin.

The total value of Nigeria's imports amounted to $\mathrm{N} 2,084.8$ billion in the Third quarter of 2013. This was N486.5 billion or $30.4 \%$ higher than $\mathrm{N} 1,598.2$ billion recorded in the previous quarter of 2013 , and $64.0 \%$ or N 813.5 billion greater than the value of imports recorded in the Third Quarter of 2012 (see Table 1). The increase from the previous quarter can be largely attributed to a rise in the import value of the following Sections ${ }^{1}$; Beverages and Tobacco, which increased by N208.9 billion or 3138.7\%, Machinery and Transport Equipment, which increased by N145.2billion or $54.4 \%$, and Food and Live Animals, which increased by N51.5billion or $35.7 \%$. The year to date, the value imports stood at $\mathrm{N} 5,329.8$ billion, $23.0 \%$ greater than the $\mathrm{N} 4,332.0$ billion cumulative total through the first three quarters of 2012 (Table1).

Analysis of import composition by Broad Economic Categories (BEC) revealed that in the Third quarter of 2013, the largest contributor to the value of imports were Industrial Supplies at N494.2 billion or $23.7 \%$ of total imports, Goods Not Elsewhere Specified at N474.0 billion or 22.3 \% and Capital Goods, which totalled N299.0 billion or 14.3\% (Table 7). Analysis by HS Section revealed that the largest share of imports was contributed by Boilers, Machinery and Appliances with N422.6 billion or $20.3 \%$ of total imports in the third quarter of 2013. Other significant sections contributing to the import bill during the period included; Prepared Foodstuffs, Beverages, Spirits and Vinegar at N355.6 billion or $17.1 \%$ of total imports, Mineral Products at N325.0 billion or $15.6 \%$ of total imports and Vehicles, Aircraft and Associated Parts with N238.8 billion or 11.5\% of total imports (See Table 2).

Analysis of the Nigeria's imports by the direction of trade shows that the greatest source of imports into Nigeria was from China, with an import value of N378.3 billion entering Nigeria in the Third Quarter of 2013. The second greatest source of imports was the United States, followed by the United Kingdom, Belgium and Netherlands, with N188.6 billion, N120.8 billion, N104.2 billion and N101.0 billion respectively, imported to Nigeria from each country within the third quarter.

Analysis of imports by continent of origin (See Table 4, Appendix) revealed that Europe ranked highest, with N694.6 billion or $33.3 \%$ of Nigeria's imports coming from the region in the Third Quarter of 2013. This was followed by Asia with N678.8 billion, Africa with N392.3 billion and The Americas with N307.0 billion, representing $32.6 \%, 18.8 \%$ and $14.7 \%$ of total imports respectively. Third quarter imports from ECOWAS countries stood at a lesser N8.7 billion or $2.2 \%$ of total imports from the African continent(Table 4).

[^0]
## Exports Classified by Standard International Trade Classification and Country of Destination

The total value of Nigeria's exports stood at N3,573.4 billion in the Third Quarter of 2013. This compared with N3,742.9 billion recorded in the Second Quarter of 2013, indicates a decline by N169.5 billion or $4.5 \%$. Comparing the Third Quarter 2013 export values with those of the same quarter in 2012, also indicates a decrease in exports by N2, 334.8 billion or $39.5 \%$. Through the Third Quarter of 2013, the total year to date value of exports amounted to N10, 768.4 billion, $34.9 \%$ less than the cumulative total through the third quarter of 2012 valued at $\mathrm{N} 16,553.4$ billion (Table1).

Analysis by HS section indicates that Mineral Products dominate Nigerian exports, with a contribution of N3, 170.5 billion or $88.7 \%$ of total exports in the Third Quarter of 2013. Th is is followed by Vegetable Products with N96.8 billion or $2.7 \%$, Prepared Foodstuff, Beverages, Spirits and Vinegar with N79.9 billion or $2.2 \%$ and Vehicles, Aircraft and Parts Thereof, with N56.2 or 1.6\% (Table3).

Classifying Nigeria's exports by the country of destination shows that in the Third Quarter of 2013, Netherlands consumed the highest volume of Nigeria's exports with N512.4.3 billion imported, followed by the India with N495.3 billion, United States with N278.5 billion, Brazil with N273.1 billion and Spain with N262.1 billion. Exports classified by continent showed that Europe consumed the highest volume of Nigerian exports in the third quarter of 2013 , with $\mathrm{N} 1,594.5$ or $44.6 \%$ of total exports, followed by Asia with N686.4 billion or $19.2 \%$ of total exports, The Americas with N680.6 billion or $19.0 \%$ of total exports and Africa with N545.0 billion or $15.3 \%$ of total exports. Within the African region, exports to ECOWAS countries contributed N192.3 billion or 35.3\% of total exports to the region.

## Methodology

The National Bureau of Statistics publishes a Trade statistics report quarterly. NBS Trade statistics are largely compiled using secondary data sources.

## Data Sources:

Nigerian Customs (through the Nigeria Integrated Customs Information System), Cobalt International Plc (on export commodities), Nigerian National Petroleum Corporation and various oil companies in sectors upstream and downstream of the oil industry, Nigerian Ports, Petroleum Products Price Regulatory Agency, Central Bank of Nigeria.

## Validation \& Quality Assurance:

After collecting data from the above sources, data is verified and checked for outliers. Data validation is undertaken through the checking of a sample of Nigerian Customs outposts in Nigeria. Furthermore, export validation is exercised through regular visits by the NBS field staff to outposts of Cobalt International. Weight harmonization is also carried out for all entry posts of imports and exports in Nigeria.

## Processing/Analysis:

Data processing is carried out using Global Eurotrace software, whereby processed data is banked in the trade database. The Standard International Trade Classification (SITC) is used to categorize trade items.
