METHODOLOGY

Field work is done solely by over 700 NBS Staff in all States of the federation supported by supervisors who are monitored by internal and external observers.

Prices are collected across all the 774 local governments across all States and the FCT from over 10,000 respondents and locations and reflect actual fare households state they actually paid for those services.

The average of all these fares is then reported for each state and the average for the country is the average for the state.

NBS audit team subsequently conducts randomly selected verification of fares recorded.
