STATES WITH THE HIGHEST AVERAGE PRICES													
Taraba	243.33												
Benue	241.67												
Borno & Ondo	240.00												
STATES WITH THE L	STATES WITH THE LOWEST AVERAGE PRICES												
Bayelsa	208.64												
Nasarawa	207.78												
River	206.76												

METHODOLOGY

Field work is done solely by over 700 NBS Staff in all States of the federation supported by supervisors who are monitored by internal and external observers.

Fuel Prices are collected across all the 774 local governments across all States and the FCT from over 10,000 respondents and locations and reflect actual prices households state they actually bought those fuels together with the prices reportedly sold by the fuel suppliers.

The average of all these prices is then reported for each state and the average for the country is the average for the state.

NBS audit team subsequently conducts randomly selected verification of prices recorded.
