

Nigeria's Merchandise trade growth in Q12014:

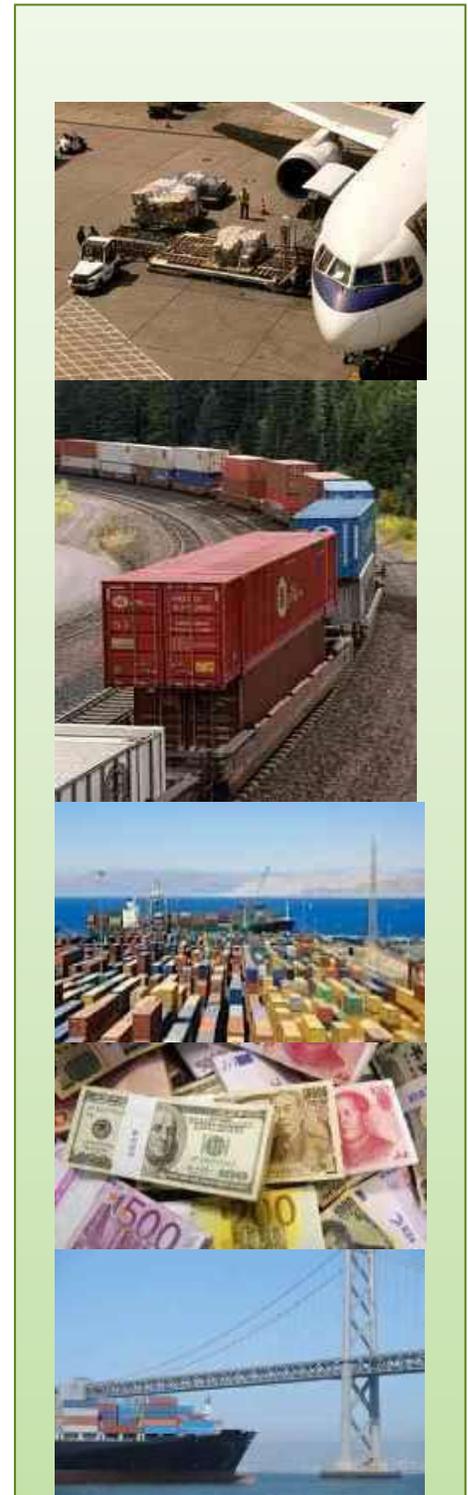

Rising exports and declining imports result in greater trade surplus.

Total Merchandise Trade

The total value of Nigeria's **merchandise** trade at the end of quarter 1, 2014 was N5,514.9billion. This represented a 6.8% increase from the value of N5,162.9billion recorded in the preceding quarter. In comparison with the corresponding quarter of 2013, the value of the total merchandise trade increased by N406.0billion or 8.2%.

The first quarter of 2014 saw an N492.6billion or 14.2% rise in the value of exports, alongside an N140.6billion or 8.3% fall in the value of imports against the quarter 4, 2013 figures. The resultant **trade surplus** of N2,424.0billion represented a 35.4% increase from the surplus observed in the previous quarter.

Comparison with the first quarter of the previous year revealed that the value of the nation's trade surplus increased by 34.3%, or N618.6 billion as a result of a decline in imports by 6.2% while exports increased by 15.0% during the period. The crude oil component of total exports stood at N3,233.6 billion for the First Quarter (81.5% of total exports), while the non-crude oil accounted for N735.9billion (18.5% of total exports: Table1).

Imports Classified by Standard International Trade Classification and Origin.

The total value of Nigerian **imports** stood at N1,545.4 billion in the First Quarter of 2014. This was 8.3% lower than the value of N1,686.1 billion recorded in the preceding quarter. Comparison with the corresponding quarter of 2013 showed a N101.3 billion or 6.2% lower value.

Classified by Section, the structure of Nigeria's import trade was dominated by the imports of Boilers, machinery and appliances, which accounted for 23.7% of the total value of import trade in Q1, 2014 (Table 2). Other Sections of commodities that contributed notably to the value of import trade in the quarter were Mineral products (16.0%), Vehicles, aircraft and associated parts (13.0%), Base metals and articles of base metals (9.5%) and products of the chemical and allied industries (8.5%).

Import trade classified by Broad Economic Category revealed that Industrial supplies not elsewhere classified had the greatest value with N435.3 billion or 28.2% of total imports (Table 7). This was followed by Capital goods and parts, with the value of N344.4 billion or 22.3% and Transport equipment and parts, with N222.6 billion or 14.4% of the total import value.

At the product level, **motor spirit** holds the greatest value of imports, at N192.5 billion or 12.5% of total imports for the first quarter of 2014. This was followed by Spelt, common wheat and meslin with N54.2 billion or 3.5%, and Machine tools for working stone, ceramics, concrete etc, with N46.5 billion, or 3.0% of the total value of imports.

Analysis of Nigeria's imports by Continent of origin revealed that the country largely consumed goods from Asia, with import value of N670.4 billion or 43.4%. Other significant contributors include imported goods valued at N563.1 billion or 36.4% from Europe and N227.6 billion or 14.7% from The Americas. The import trade within the continent of Africa totalled N65.1 billion or 4.2% of total imports, while imports from the region of ECOWAS amounted to N8.4 billion, which represents 13.0% of total imports from Africa (Table 4).

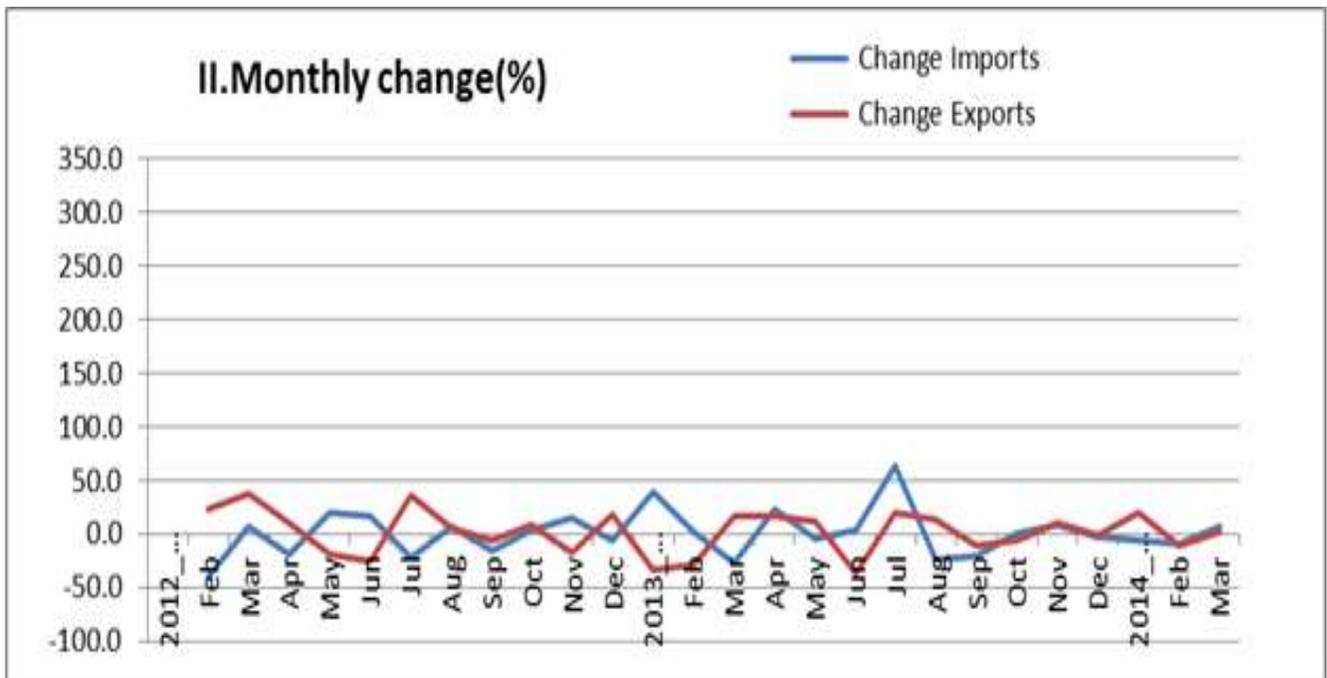

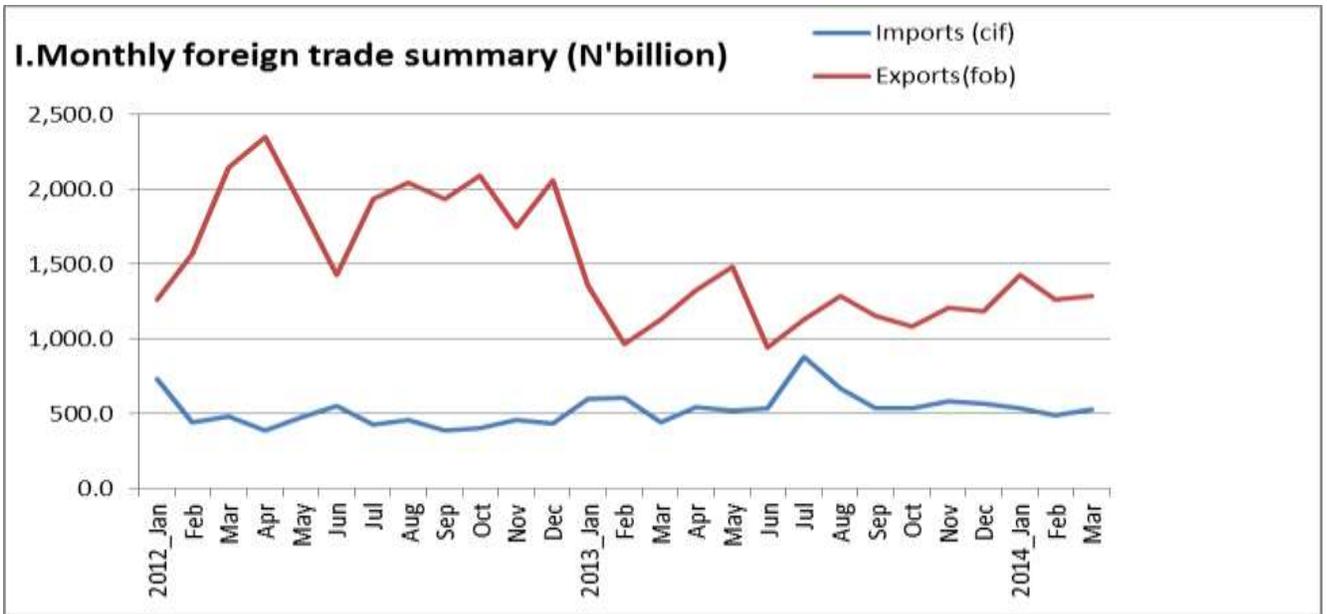

Import trade by country shows that Nigeria imported goods mostly from China, United States, India, Belgium and Netherlands, which accounted for N368.1 billion or 23.8%, N164.7 billion or 10.7%, N93.2 billion or 6.0%, N91.7 billion or 5.9% and N76.4 billion or 4.9% of the total value of goods imported during the period under review.

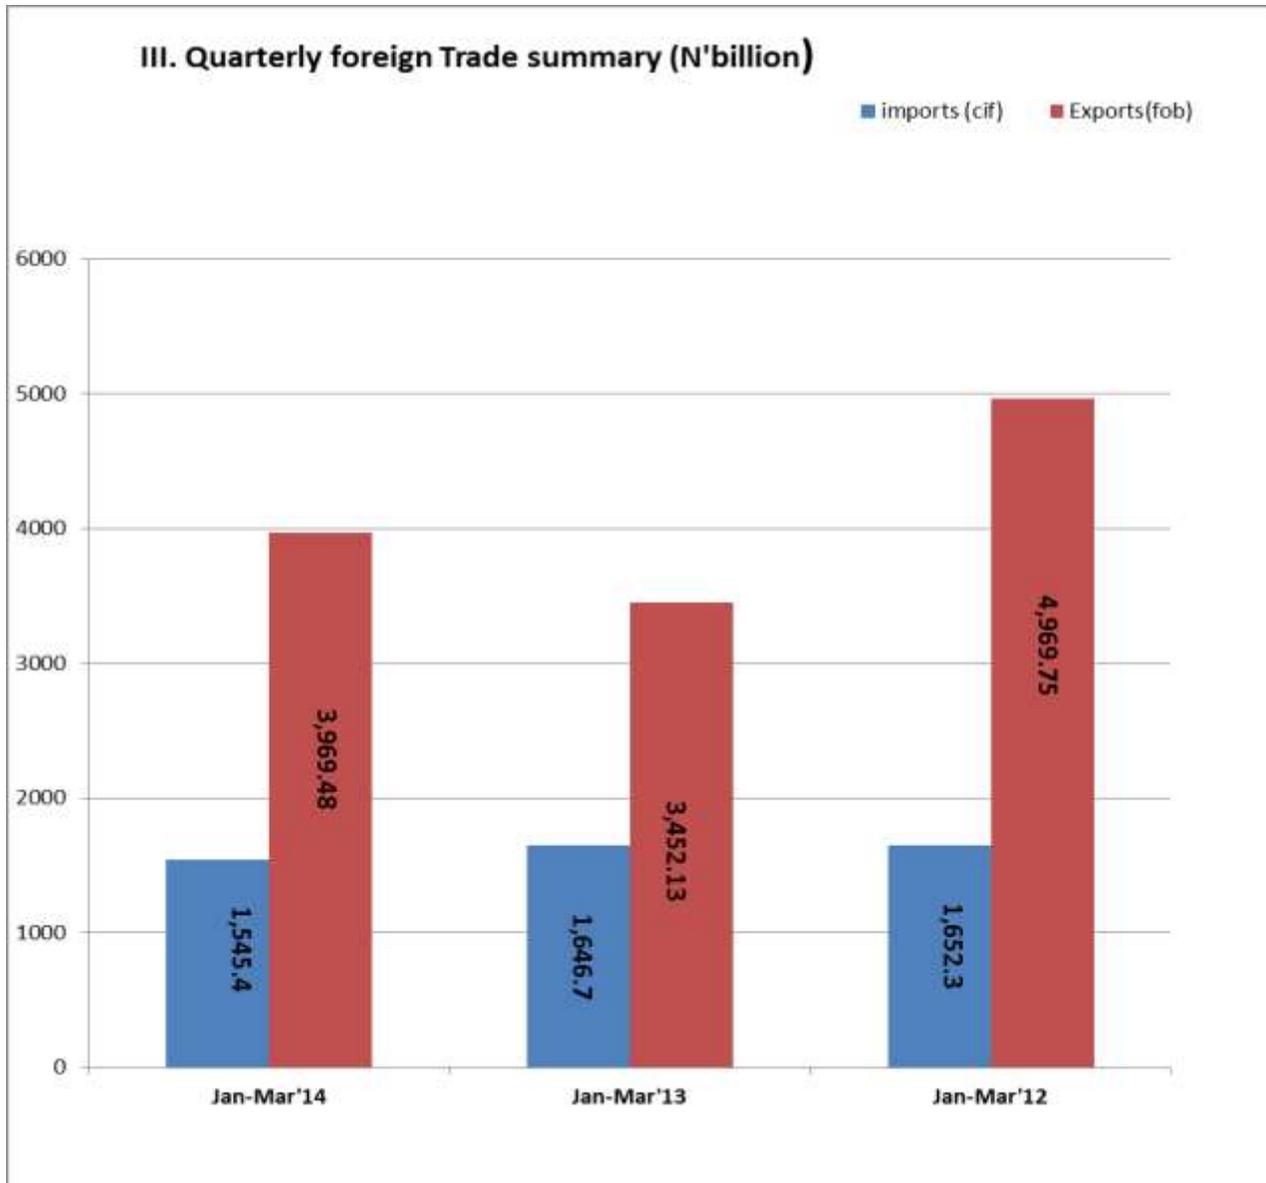

Exports Classified by Standard International Trade Classification and Destination

The value of **export** trade totalled N3,969.5billion in Q1, 2014, showing an increase of N492.6billion or 14.2% over the value recorded in the preceding quarter. Crude oil continues to dominate export trade, contributing 81.5% of total export trade value, yet both crude and non-crude components were drivers of growth. The Crude Oil component of export trade grew by 8.4% from the preceding quarter, and contributed to 51.1% of the total growth in exports, whereas the non-crude component of trade grew by 48.6%, and was responsible for 48.9% of the total export growth from the previous quarter (Table1).

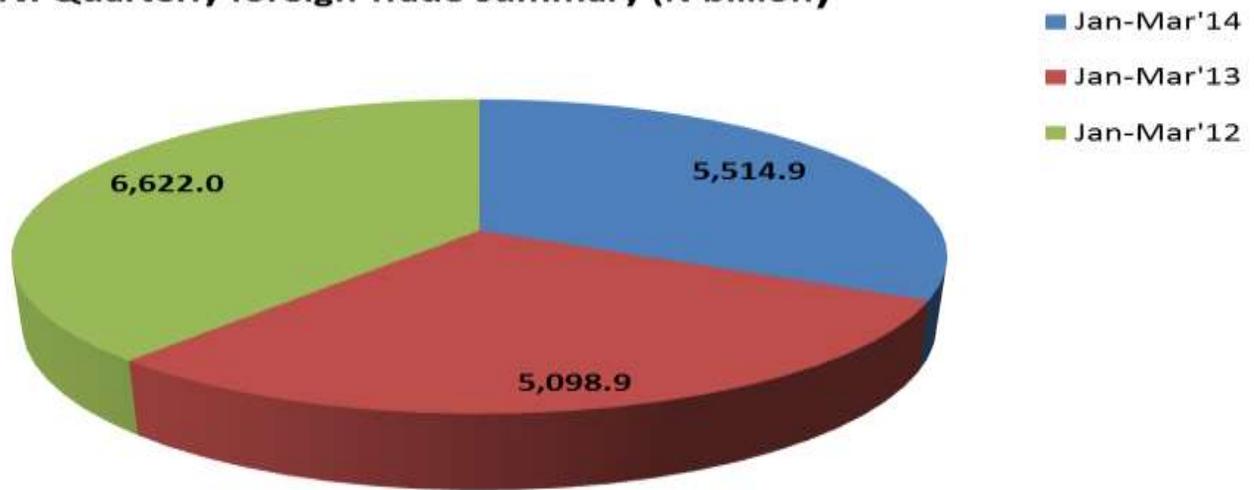

Exports classified by Section show that in quarter one, Nigeria exported mainly mineral products, which accounted for N3,599.5billion or 90.7% of the total export value. Other significant categories include Boilers, machinery and chemical appliances, valued at N92.2billion or 2.3% of the total, and Vehicles, aircraft and associated parts valued at N89.6billion, also 2.3% of the total. By individual product, after crude, natural **liquefied gas** held the second highest exports value, with N330.0 billion or 8.3% of the total during the period under review.

Classified by continent of destination, Nigeria mainly exported goods to Europe and Asia, which accounted for N1,727billion and N1,187.5billion or 43.5% and 30.0%, respectively, of the total export value during the period under review. Nigeria exported goods valued at N424.4billion or 10.7% to the continent of Africa while export to the ECOWAS region totalled N171.2billion, representing 40.3% of all export trade to Africa (Table5). By country of destination, Nigeria predominantly exported goods to India, Netherlands, Brazil, Spain and France, whose values stood at N544.0 billion or 13.7%, N461.5billion or 11.6%, N376.8billion or 9.5%, N346.0billion or 8.7% and N310.9billion or 7.8% of total export trade respectively.

IV. Quarterly foreign Trade summary (N'billion)

Methodology

The National Bureau of Statistics publishes this Trade statistics report quarterly. Trade statistics compilation by NBS is largely from secondary data sources.

Data Sources:

The Nigerian Customs through the Nigeria Integrated Customs Information System, Cobalt International Plc (on export commodities), Nigerian National Petroleum Corporation and various oil companies in the upstream and downstream sectors of the oil industry, Nigerian Ports, Petroleum Products Price Regulatory Agency, Central Bank of Nigeria.

Validation & Quality Assurance:

After collecting data from the above sources, it is verified for outliers, Data validation is undertaken through a sample of the various Nigerian Customs outposts in Nigeria. Equally, regular visits are paid to the various outposts of Cobalt International for export validation using the extensive NBs field network. Weight harmonization is carried out through the various entry posts of imports and exports in Nigeria.

Processing/Analysis:

Data processing is done using the Global Eurotrace software and the processed data is banked in the trade database. We use the Standard International Trade Classification (SITC) to categorize trade items.
