## SECTION FOUR

### FORESTRY

This section gives detailed information on forestry in year 2008.

Table 4.1 shows the types of forestry reserves in square kilometres. Out of 3076.16sqkm forestry reserve, the high forest accounted for the highest portion of 2834.67sq km representing 92.2%, savannah forest, 6.3% and Mangrove forest, 1.5%. The area encroached is 1391.63, about 45.3% of the total area. This calls for necessary measures by the state government to address the situation.

Tables 4.2 and 4.3 show monthly revenue collected on forestry between 2007 and 2008 which are ₦144,237,029 and ₦177,120,476.50 respectively. The highest monthly revenue of ₦18,949,425.00 ( 13.2%) in 2007, was recorded in February while highest monthly revenue of ₦29,181,905(16.5%) in the year 2008, was recorded in January. The tables also reveal that Owo local Government Area recorded the highest revenue of ₦29,474,578 in 2007 and Akure North Local Government Area recorded the highest of ₦32,429,225 in 2008.

Tables 4.4 and 4.5 show the summary of the revenue on quarterly basis in 2007 and 2008. The highest revenues were recorded in first quarter in both years.
