

Selected Tables from Job Creation and Employment Generation Survey, 2nd Quarter 2015

**National Bureau of Statistics
August, 2015.**

Summary Tables of the Quarterly Job Creation Second Quarter 2015

Background:

This Summary Table contains the latest estimates for jobs created in the Nigerian economy for the Second Quarter of 2015. These estimates are the results of the Quarterly Job Creation Survey commissioned by the National Bureau of Statistics (NBS) in collaboration with the Office of the Chief Economic Adviser to the President, National Planning Commission and the Federal Ministry of Labour & Productivity. The objective of the quarterly survey is to track the number of jobs being created in the economy within a given period of time, provide multi-sectoral and policy relevant data on the employment-generating sectors, seasonality in employment and the labour market.

The findings are categorized into Formal sector jobs, Informal sector and Public sector jobs. Formal jobs refer to employment generated in establishments that employ 10 persons and above, or formal professional services that employ less than 10 persons. The Informal jobs are those generated by individuals or businesses employing less than 10 or those businesses operating with little or no structures e.g. those in Agriculture and Wholesale and Retail Trade. While The Public Institutions are the Government Ministries, Departments, Agencies (MDAs), Government Parastatals, Academic and Research Institutions at Federal, State and Local government levels.

The Quarterly Job Creation survey is a nationwide survey, covering all 36 states of the federation including the Federal Capital Territory (FCT). A sample of 5000 establishments was taken across the country covering all sectors of the economy. This round of the survey, for which estimates are being reported, achieved a response rate of 92.3 percent from the establishments selected in the sample, which is highly commendable. The following selected

tables are the key findings from the surveys, a detailed report of the survey results will be published subsequently.

Findings of the 2nd Quarter Survey

In the second quarter of 2015, the Total number of jobs created in the economy was 141,368 jobs, this is a decline of 69.9percent (327,702) over the number of jobs in the preceding quarter and 45.5 percent less than the total number of jobs recorded in the same period of 2014.

In the formal sector, 51,070 new jobs were generated, representing 36.1percent of total jobs generated in the second quarter of 2015. This is a decline of 61.6percent (79,871) jobs when compared to the first quarter of 2015 and a 35.2percent decline when compared to the same period in 2014. In the public sector of the economy, there was a 11.7 percent (669) increase in the number of jobs created making 6,395 new jobs generated in the public sector in the 2nd quarter of 2015, the jobs generated in the public sector represents 4.5percent of the total jobs generated during the reference period.

Under informal jobs, which typically consists of jobs generated by individuals or businesses employing less than 10 or those businesses operating with little or no structures e.g. those in Agriculture and Wholesale and Retail Trade. In the second quarter of 2015, an estimates 83,903 new jobs were created in this sector, compared to 332,403 new jobs in the 1st quarter of 2015; this signifies a 74.8percent decrease between the two periods.
